PROGRAMMING SKILLS

- **Languages**: JavaScript, TypeScript, Python, Dart   **Technologies**: React, NodeJS, GraphQL, NestJS

EDUCATION

- **University of Greenwich**   London, UK
  Bachelor of Science in Computer Science   *Sep. 2019 – June. 2023*
  - Relevant courseworks: System Design for Bookshop, Creating CRM for Toy Shop (Python), Research about safety 2FA authentication methods
  - GPA: 72 / 100

EXPERIENCE

- **Golden Link**   Moscow, Russia
  Software Engineer Intern   *May 2021 - Aug 2021*
  - Improved website loading performance by 40% by optimising server-side requests output
  - Developed updated version of dashboard for managing orders
  - Designed and implemented new features for tracking orders status
  - Used TypeScript, GraphQL, React, Express, PostgreSQL

PROJECTS

- **RI0FF expedition website**   Github
  (JavaScript, React, Redux, Next.js, Express, MongoDB)
  - Created a full-stack bilingual website about the expedition with the dashboard where administrators can publish and manage a blog, photos and moderate chat messages

- **Amateur Radio club website**   N/A
  (JavaScript, Next.js, React, GraphQL, Express, PostgreSQL, Redis)
  - Developed website for Amateur Radio club with server-side rendering and advanced website managing system

- **Discord Bot**   Github
  (JavaScript, MongoDB, Discord.js)
  - Implemented Discord bot with moderation features and auto-role management tool. New people who joined the server don't need to wait for the admin to obtain a role. A person can start a vote, and people with chosen a role can approve or decline this request

- **Habit and todo tracker**   Github
  (Flutter, Dart)
  - Developed mobile app for tracking habits and todos by using flutter
